PCI # [20230727OBO]

End of Life TSI VEDA/TSI NOVA/TSI MEDIA/Bravo ST/ Bravo Packs 230VAC

Supplier Info CE+T S.A Rue du Charbonnage 12 B-4020 WANDRE (Belgium)	Product notification number: PCI: 20230727OBO
--	---

Date July 25th, 2023	Product description: TSI VEDA/NOVA/MEDIA/Bravo Packs 48Vdc 230Vac and Bravo ST Phasing Out
--------------------------------	--

Dear Customer/Partner,

We would like to inform you about an important update regarding our modular inverters, which have been serving your needs for the past 15 years.

After careful consideration and extensive research, our new and improved line of modular inverters, namely BRAVO 4, BRAVO 6, BRAVO 10, and BRAVO 25 have been introduced. These cutting-edge products are more compact, efficient, and performant than their predecessors, providing enhanced reliability and performance to meet the ever-evolving demands of your industry.

While our VEDA, NOVA, MEDIA 48 230, BRAVO ST and BRAVO PACK modular inverters have been reliable workhorses, technological advancements have allowed us to design and develop a new generation of products that offer even greater benefits. The BRAVO 4, BRAVO 6, BRAVO 10, and BRAVO 25 inverters embody the culmination of our commitment to innovation, ensuring your operations are powered by the latest advancements in energy conversion technology.

To ensure a smooth transition and provide ample time for your planning, we will be phasing out the VEDA, NOVA, and MEDIA modular inverters over the next 12 months starting September 1st 2023. During this transition period, we will continue to accept purchase orders for these products until August 30th 2024 with deliveries until August 2025. Further deliveries on request to your sales representative.

We understand that you may have concerns about the availability of spare parts, maintenance, and support for the models being phased out. Please rest assured that we have taken these factors into account and will continue to provide comprehensive support and service for the VEDA, NOVA, and MEDIA modular inverters as well as BRAVO Packs and BRAVO ST until August 31, 2033. Our dedicated technical support team will be available to address any queries or assistance you may require during this period.

We believe that the introduction of the BRAVO 4, BRAVO 6, BRAVO 10, and BRAVO 25 modular inverters will greatly benefit your operations, offering improved performance, efficiency, and ease of use. The compact design of these new models allows for seamless integration into your existing systems, maximizing space utilization and enhancing overall operational efficiency.

Thank you for your continued trust and support throughout the years. We remain committed to delivering the highest quality products and services to meet and exceed your expectations. Should you have any questions or require further assistance, please do not hesitate to contact our customer service department.

For any specific enquiries or demand please contact your sales representative.

The appendix attached refers to all part numbers concerned by this phase out as well as proposed replacement with our new product range and controller.

We remain available for any information you may require.

O. Bomboir.

Olivier BOMBOIR
Director of Product Management
